Accumax Centrifuge Tubes

(15/50 ML Tubes)

Where perfection is the prerequisite, even the smallest components get the same importance.

Even though centrifuge tubes are considered widely as just another part of the device, they are extremely important in the way they affect the outcome of the experiment.

Thus, at Accumax, the highest standards are followed during the design & development of these tubes to ensure that there does not remain even the minutest chance of any flaws in this vital consumable.

As a result, these tubes of high quality are certified to be free from all affecting biological elements such as DNase, RNase, Endotoxin, Pyrogen and ATP.

Perfection Is An Understatement

Experience the impact of perfection in your lab with Accumax's impeccable centrifuge tubes which are designed using the absolute best raw materials and procedures to ensure almost 100% purity. Moreover, these tubes are built to offer optimum convenience & durability.

Manufactured In Fully Automatic Human Touch-free Plant With Class 100k Clean Room Facility With Controlled Environment & Access

Produced From Swiss-made Diamond Finish Mold For Flawless 'Super Smooth' Internal Surface

Non Cytotoxic

Biologically Inert

Highly Transparent And Clear

US FDA Approved Virgin Polypropylene Without Any Trace Of Metals

Dnase, RNase, Endotoxin, Pyrogen Free

Can Withstand Temperature From -80 To +121° C

Perfection Is An Understatement

Easy Seal Design Of The Cap To Ensure Smooth Opening And Closing With Single Hand Repeatedly

Multiple Packaging Options

Clear Large Graduations On The Body Of The Tube

Superior Engineering Technique Enables Tubes To Withstand Higher G Force

Tamper Proof Graduation Marks & Writing Area - Resistant To Chemical & Physical Corrosion

Fits All Standard And High Capacity Centrifuge Rotors

15 ML
17000 g

50 ML
20000 g
